

CARPENTERS ASSISTANT

Kelowna, BC

Long term project

Stretch Construction provides full-service construction management services for the commercial industry. Stretch was born out of a need to provide premium, quality products and service to our industry. We have worked hard to set ourselves apart through quality and innovation, along with an unparalleled emphasis on accountability and straightforwardness.

We are a team whose personal ethics are deeply grounded in family, community and doing the right thing, we know relationships are everything. As a result, we're able to build amazing solutions for our clients, who know they can count on us to deliver honest, integrity-driven, quality results on time, every time.

Stretch Construction is looking to hire a **Carpenter Assistant/Helper** to work closely with our Operations team on a large ongoing project in Kelowna.

Roles and responsibilities include:

- Assist in a variety of tasks that will focus on carpentry that require form and execution;
- Be mechanically inclined
- Be proficient with trade tools and materials necessary to the job
- Come with full PPE (steel toed boots, High vis vest, hard hat, gloves, safety eyewear)
- Be available to work Monday - Friday with occasional Saturdays
- Have reliable vehicle/transportation
- Be dependable & consistent – show up on time & ready to work, be a hardworking & driven individual with a desire to continue learning
- Have the ability to work independently with attention to detailed instructions, or as part of a team with great work ethic
- Hold a concern for safety & familiarity of construction site safety protocol
- Show a positive attitude to complement our team

Qualifications and Experience:

Required:

- Ideally possess 1-2 years of experience functioning in the construction industry

Preferred:

- First Aid level 2; (Preferred)
- Have a forklift ticket (not required but considered an asset)

Salary: \$20-\$25/hour based on experience
